"US schools dominate the top of the range (Michigan, Yale, Pittsburgh all above ₹1 Cr for two years). One-year UK master's (₹39-61 L) and online/European options (BU online ₹23 L; Sweden ₹37-42 L) are the most cost-efficient international routes."

International summary

5 Reading the Market — India vs. Abroad

The single clearest finding is the scale of the affordability gap: the median Indian MPH (₹2.84 L) is roughly one-twentieth of the median international tuition (₹61.5 L). Even India's most expensive standalone private MPH (IIHMR, ₹7.5 L) is below the cheapest mainstream overseas option.

VALUE SEGMENT

Govt & mission institutes — JIPMER (₹0.15 L), CMC (₹1.31 L), SCTIMST (₹1.10 L). Highly subsidised, competitive entry.

MAINSTREAM PRIVATE

Most private deemed universities cluster ₹2.5–4.5 L — Yenepoya, DSU, Padmashree, Sri Ramachandra, MAHE, Amrita.

PREMIUM / SPECIALIST

PHFI/IIPH (₹4.8–5.7 L) and IIHMR (₹7.5 L); international-collaboration models run far higher (JHU-IIHMR ~₹21 L).

6 Where a Bengaluru MPH Should Sit

HOW THIS BENCHMARK WAS BUILT

- **Official sources only.** Every fee is drawn from a university/institute page or official prospectus — no fee-aggregator sites. Each row links to its source.
- **Fee comparability.** Institutions publish differently (tuition-only, semester, annual, or full-programme). The published basis is retained; two-year totals are used where possible.
- **Estimated totals.** Where only an annual/semester fee is published, the programme total is estimated by multiplying by duration; such rows are flagged.
- **Traffic-light status.** Verified = current official benchmark; Verify = official source exists but the exact current row should be reconfirmed; Historical = older official figure, not current pricing.
- **Exclusions.** Hostel, living, insurance, visa and travel costs are excluded unless a published academic fee inherently includes them.
- **Currency.** International INR equivalents move with the FX assumptions above; treat them as planning figures.

COVERAGE

36 Indian programmes (27 with verified numeric fees) and 30 international universities across the USA, UK, Australia, Canada, New Zealand, Singapore, Hong Kong SAR and Sweden.
